

Prerequisite: Math 112 or equivalent placement test within the past calendar year. Advisory: English See college schedule

Contents: Application of linear functions, quadratic functions and linear systems to problems. Emphasis on the development of models or real world applications and interpretation of their characteristics.

Text: **Intermediate Algebra (DeAnza Custom Ed.)** by Robert Blitzer

Attendance: Students are expected to attend all class meetings. You will be held responsible for all material and announcements given in class even if you are absent. If a student decides not to continue with the course, it is the student's responsibility to officially withdraw from the class. A student with three or more unexcused absences MAY be dropped from the class. Students are NOT automatically dropped. A student who decides not to continue with the course and fails to officially withdraw (BEFORE the deadline) will receive a grade of F.

Notes: 1) Please turn off cell phone while in the classroom (including breaks). Do not disturb others.

If your cell phone interrupts class, you will be dismissed from the remainder of that particular class period.

Cell phones/PDA's should not be visible during class. Cell phone problems? Please see instructor.

2) Do not make any assumptions about class administration. Always ask. e.g. No visitors, No recordings, etc.

3) In general, approval to withdraw after the deadline to withdraw will not be given.

4) Add approval may be withdrawn if an student fails to complete the entire registration process within 2 class periods.

(Registration problems? Registration delayed? Please inform instructor.)

5) All exams and quizzes are closed book, closed notes. You may use a scientific calculator.

6) A calculator is required. A basic scientific calculator is recommended. For certain

topics, graphing calculators will not be allowed during exams. Cell phone/PDA calculators not allowed in this class.

7) Make-up exams are not given. The lowest exam score will be dropped.

If you miss an exam, a score of zero will be recorded for that exam.

8) All messages to instructor should always be directed to voice mail (408-864-8999 Ext: 3359) or on-campus mail box located in Physical Science/ Math /Engineering Division office.

9) Be sure to use free tutorial service. (Phone: 408-864-8683 Room: S-43)

10) Instructor office time: Usually Mon/Wed 3:15-3:45 PM Room S-43 (inner office)

Assignments: Assignments will play an important role in this course. They provide the "hands-on" experience necessary to be successful in this class. Both graded and non-graded assignments will be given. Problems assigned, especially non-graded problems, will provide a pool of problems from which the majority of exam and quiz problems will be taken. An assignment submitted one class period late will be accepted for 50% max. credit only. No assignment more than one class period late will be accepted. (Assignments may be submitted before due date.) An assignment submitted after class start time on due date is subject to being marked as late with some point deductions. Submit all at one time.

(Note: Extra credit may be offered in a variety of other forms such as online quizzes, in-class problems, etc. No make-up for missed extra credit)

Exams: Three exams and a final exam will be given. If a student misses an exam, a score of zero will be recorded for that exam. Make-up exams are not given. The lowest score recorded for an exam will be dropped and not considered in calculating the total exam points. All other scores (including final exam score) will be included in the student's total score. A student who misses the final exam will receive a score of zero on the final exam. No make-up final exam will be given.

Grade: Your grade will be determined by the total number of points earned from the total of 400 points.

Shown below is an example of a typical, approximate point distribution. Actual distribution may be somewhat different.

Assignments.....	40	
Exams.....	230	(115/115/115)
Final Exam.....	130	Wed, Mar. 25th, 6:15 PM
Total.....	400	

Grade Scale:

A+: 98% to 100%	B+: 87% to 89%	C+: 76% to 79%	D+: 64% to 67%	F: < 57%
A: 94% to 97%	B: 84% to 86%	C: 68% to 75%	D: 60% to 63%	
A-: 90% to 93%	B-: 80% to 83%		D-: 57% to 59%	

De Anza / Math 114 / Mon/Wed 6:00 PM / Course I. D.: Math 114-65 Expected Schedule Winter 2009					
All exam dates are planned dates. Actual dates confirmed in class.					
	Monday	Tuesday	Wednesday	Thursday	Friday
